## BANNER FINISHING

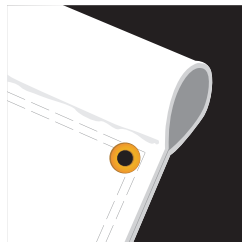

### Hems and Grommets

Standard banner finishing. Hems and grommets add strength and durability to your banner. Grommets make hanging easier and are generally spaced evenly around banner. Grommets can be placed to you exact specification

### Reinforced Corners

Extra strength for outdoor and windy conditions.

### Pole Pockets

Pole Pockets can be added to any side of a banner. Pole pockets help the banner hang evenly when hung from the ceiling. When pole is inserted it makes for a rigid banner, great for carrying in parades. To calculate the size of the pocket  
Pole Pocket's Size = Diameter x 3.1416  
\*\*use outside diameter to calculate

### Sewn in Rope

Extra strength for outdoor and windy conditions.

### D Rings

Sturdy D Rings can be add for easy installation or extra durability.

### Velcro

Sewn on Velcro can be added as an installation alternative or to add or remove copy, making your banner more versatile.
